## MF20 SR

## Features

## Simple direct mounting

Straightforward direct mounting for the VF208W butterfly valve with only one screw. The mounting position in relation to the butterfly valve can be selected in $90^{\circ}$ steps.

## Manual override

Manual operation of the valve with the hand crank, locking in any position with the interlocking switch. Unlocking is manual or automatic by applying the operating voltage.

## Adjustable angle of rotation

Adjustable angle of rotation with mechanical end stop.

## Flexible Auxiliary Switch

For the actuators with integrated auxiliary switches, one switch has a fixed setting at $10 \%$, and the other switch can be adjusted between 11-100\%

## Spring Return Butterfly Valve Actuators

Modulating and Two Position Control, 20 Nm
The MF20 SR is a robust, reliable rotary actuator for the control of the VF208W 25-100 butterfly valves. These actuators mount without linkage kits for a quick and simple installation.

The actuator is controlled with either an on/off (full open/ full close) or a 2-10 VDC proportional control signal, moving the butterfly valve to the desired position while tensioning the return spring. The butterfly valve is driven back to the rest position by spring force if the supply voltage is interrupted.

The factory default spring return rest position is normally closed. Adaptation to a normally open configuration can be done in the field by changing the mounting orientation of the main actuator within its mounting frame.

The actuator is overload-proof, requiring no limit switches and automatically stopping when the end point is reached.

## Available Products

| Part Number | Type Designation | Power Supply |  | Power Consumption |  |  | Control Signal | Cable Size |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | VAC | VDC | Operation | Rest | Wire Sizing |  |  |
| MF20SR-TS | MF20 SR-24/230TS <br> 1M54 00 | 24-240 | 24-125 | 7 W | 3 W | 18 VA | 2 position (open/ closed) | $2+6 \times 0.75 \mathrm{~mm}^{2}$ |
| MF2OSR-24M | $\begin{aligned} & \text { MF20 SR-24M } \\ & \text { 1M54 00 } \end{aligned}$ | 24 | 24 | 5.5 W | $3 W$ | 8.5 VA | 2-10 V modulating | $4 \times 0.75 \mathrm{~mm}^{2}$ |

## Specifications

## Motor torque

Min. 20 Nm @ nominal voltage
Spring return torque
Min. 20 Nm
Nominal Voltage
24V AC/DC units (MF20 SR-24M)
AC: $50 / 60 \mathrm{~Hz} ; 19.2-28.8 \mathrm{~V}$
DC: $21.6-28.8 \mathrm{~V}$
Universal voltage units (MF20 SR-TS)
AC: 50/60 Hz; 19.2-264 V
DC: $21.6-137.5 \mathrm{~V}$
Motor Running TIme
Two position (open/close)
$\leq 75 \mathrm{~s} / 90^{\circ}$
Modulating
$\leq 90 \mathrm{~s} / 90^{\circ}$
Spring return
$\leq 20 \mathrm{~s} @-20 . . .50^{\circ} \mathrm{C}$ max. $60 \mathrm{~s} @-30^{\circ} \mathrm{C}$
Control Signal (MF20 SR-24M)

## Range of operation (X)

2-10V DC
Input resistance
$100 \mathrm{k} \Omega$
Position feedback (Y)
2-10V DC, max 0.5mA
Positional accuracy
+/-5\%
Functional Data
Direction of motor rotation, MF20 SR-24M
Reversible with Switch X1=0
Direction of motor rotation, MF20 SR-TS
Via mounting orientation NC/NO
Spring return
Via mounting orientation NC/NO

## Manual override

5 mm hex key crank, supplied, plus interlocking switch
Angle of rotation
Max $90^{\circ}$,limited by an adjustable end stop
Position indication
Mechanical
Power consumption
See Available Products, page 1

## Environment

## Enclosure rating

IP54, NEMA 2, UL enclosure type 2
Operation temperature
$-30^{\circ} \mathrm{C}$ to $+50^{\circ} \mathrm{C}$
Storage (non operation)
$-40^{\circ} \mathrm{C}$ to $+80^{\circ} \mathrm{C}$

## Ambient humidity

$95 \%$ r.h. non condensing
Sound power level
Motor: $\leq 45 \mathrm{~dB}$
Spring return: $\leq 62 \mathrm{~dB}$

## Weight

MF20 SR-24M: approx. 2.3 kg
MF20 SR-TS: approx. 2.5 kg
Safety
Protection Class, MF20 SR-24M
III Extra low voltage/UL Class 2
Protection Class, MF20 SR-TS
II Totally insulated

## Service Life

Min. 60,000 emergency positions

## Maintenance

Maintenance free

## Pollution degree

3

Rated Impulse Voltage
MF20 SR-24M
0.8 kV

MF20 SR-TS
4 kV
Auxiliary switch (MF20 SR-TS)
2.5 kV

Standards of Conformity

## EMC

CE according to 2004/108/EC

## LVD

CE according to 2006/95/EC

## Certification

cULus to UL60730-1A and UL60730-2-14 and
CAN/CSA E60730-1:02
IEC/EN 60730-1 and IEC/EN 60730-2-14

## Safety Notes

- The actuator must not be used outside the specified field of application.
- It may only be installed by suitably trained or supervised personnel. Any legal regulations or other regulation issued by authorities must be observed during installation.
- The switch for changing the direction of rotation must only be operated by authorised personnel. In particular, the direction of rotation must not be reversed in a frost protection circuit.
- The actuator may only be opened at the manufacturer's site. It does not contain any serviceable or replaceable parts by the user.
- The cable and connector must not be removed from the device.
- The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed.
